 GALE
CENGAGE Learning™

Always open, always available

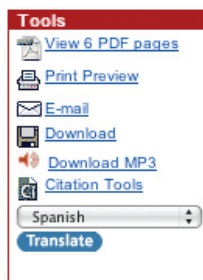

With electronic reference books from Gale and our publishing partners, researchers can instantly access thousands of eBooks on virtually any subject. These trusted, authoritative reference works are available 24/7 through our state-of-the-art *Gale Virtual Reference Library* platform, providing an unprecedented combination of functionality and features.

eBooks: Reference made easy

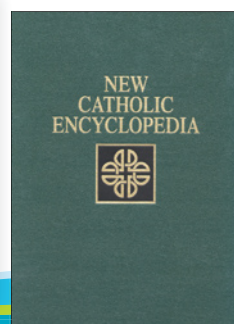

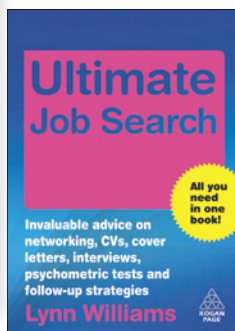

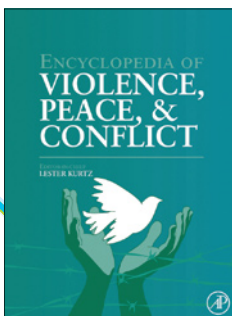

References in eBook format provide a wide range of benefits. In addition to saving shelf space, eBooks can be searched individually or as a complete collection. Online access makes popular titles available to multiple users — and not just during business hours. Your library users can link to reference content through your OPAC or directly from the Table of Contents or Index pages. With electronic references, you can offer unlimited circulation of your collection. Plus the ability to cross-search titles means faster, more comprehensive results.

Give power to your users with the benefits of eBooks:

- Thousands of full-text eBooks from Gale and our publishing partners
- Authoritative references, updated and in electronic format
- 24/7 access from any Internet-connected computer
- No more damaged pages or missing volumes
- ReadSpeaker technology (text-to-speech) allowing text to be read aloud to users and downloaded in MP3 format
- Cross-searchable with select periodical databases and Gale Resource Centers
- No special reader or hardware required
- Unlimited simultaneous use
- Ability to print, e-mail and download articles
- On-demand content translation into 11 languages

The document toolbox allows users to print or e-mail articles, download articles to handheld devices, create and export article citations in multiple formats and much more.

Searching made simple

Our innovative, state-of-the-art eBook platform makes it easy to quickly access authoritative reference information. A subject guide allows researchers to browse all available publications by subject area. Users can combine the following criteria to create as broad or narrow a search as they want and use limiters — such as publication date, subject/discipline and readership level — to refine their search.

- Title
- Keyword
- Image captions
- Publisher
- Author
- Full text
- Publication name
- ISBN
- Starting page

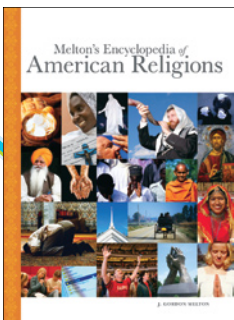

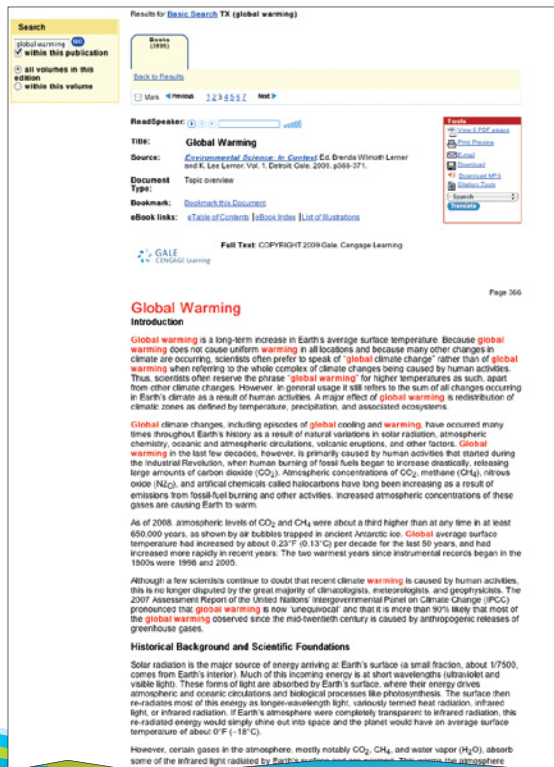

Quickly access articles with Basic Search.

From the search results page, users can view a full-text article in HTML or PDF format. Narrow results by searching within the results list, or by selecting document or publication type.

Highlighted search terms are red wherever they appear for easy identification.

Build your own customized resource center

By combining eBooks with Gale's *InfoTrac* periodical content, you can create your own Gale resource center — customized to meet your collection development, curriculum and budget needs!

For example, you can create your own cross-searchable Environmental Science resource center by combining the Environmental Studies and Policy Collection of periodicals with eBooks such as Encyclopedia of Environment and Society (SAGE Publications), Encyclopedia of Global Environmental Change (John Wiley & Sons, Inc.), *Encyclopedia of Endangered Species* (Gale), and Encyclopedia of Energy (Elsevier).

Combined with periodical content, eBooks allow you to instantly create a pool of authoritative and varied content on virtually any subject!

Librarians are saying ...

"I wanted to let you know how much our school is enjoying our eBook purchases and the eBooks we receive through the State Library of Michigan.... The students love that they can download articles and use them offline, and both students and teachers love that they are getting reliable, authoritative sources so easily. I have really appreciated the widgets, database images, eBook images and direct URLs. Thanks."

— Cheri Dobbs, Coordinator of Library Media Services

"From the beginning to now we have had a steady rise in all the resources we chose. ... The branch managers have related to me their gratitude at having access to reference material that has heretofore been available only at Main. That our smallest branch thirty-five miles away can get to such resources fits our mission to serve the information needs of all the residents of the county."

— Jo Griffith, Collection Development Head

"I can offer higher quality, expensive reference titles to every library branch, not just the main library or our regional libraries. ... Incorporating the GVRL eBooks into our *PowerSearch* with *InfoTrac OneFile* makes it easy to search and get reference works and articles in one search. ... Access to reference titles from home is great; it extends our reference collection – on demand – beyond the library building."

— Andrew Breidenbaugh, Coordinator of Reference & Information Services

"I love that it allows for the kind of serendipity you used to encounter when doing research. You enter a search topic such as 'felines' and you are provided with perfectly point-on sources like *U·X·L Encyclopedia of Science*, but also material from *Early Civilizations in the Americas Reference Library* that covers some unexpected angles of your subject."

— Anna Yackle, Reference Librarian
